

Viewer License - Product Overview

The **DDM Web client** is the perfect interface to provide that real time access to documents and information throughout your enterprise and supply chain.

Office to Enterprise PDM

Most people in business create & maintain information on a daily basis, usually to be referred to or used by someone else.

Whether you are a small company or large multi-site enterprise, sharing your information in real time & in a controlled manner is critical to ensure a smooth running and efficient business.

View your data online 24/7,
wherever you are, across
multiple platforms
